BIO

As a personality psychologist and cross-cultural psychologist, Mohsen Joshanloo has dedicated his professional career to improving our understanding of mental well-being and the role of culture in shaping it. His research on this topic has been published in more than 130 articles based on data from countries on six continents. His extensive network of international colleagues allows him to bring a global perspective to his research and stay at the forefront of developments in his field. In addition, he has a broad range of skills in data analysis and survey design and has experience teaching applied statistical analysis to students and colleagues. He also provides statistical consulting services to assist other researchers or organizations with their work.
