

## Hans Kilian Award 2019: Call for nominations/applications

From: **Pradeep Chakkarath** <<mailto:PradeepChakkarath@ruhr-uni-bochum.de>>

Dear members of the Task Force,

Please allow me to bring your attention to the fifth call for nominations and applications for the international Hans Kilian Award of Merit established by the Köhler Foundation. The award is conferred biennially and amounts to €80,000, making it one of the most highly endowed awards in the humanities and social sciences in Germany.

The Hans Kilian Award honors scientific achievements of people who have dedicated themselves to new ways of examining and conceptualizing the historical and cultural existence of mankind and the corresponding alteration of the human psyche. This call is addressed foremost to scientists and researchers who thereby have been creatively transcending the borders between disciplines and cultures and brought forth productive syntheses between previously isolated areas of knowledge. Special consideration will be given to those who explore historical and cultural dimensions.

Attached, please find a flyer containing further details about the award, the former awardees, and the nomination/application procedures. In addition you'll find the official form for nomination or application.

Best regards,  
Pradeep Chakkarath
