Bio:

Samyajit Basu is a senior researcher in the Mobilise mobility and logistics research group, part of House of Sustainable Transitions (HOST) at Vrije Universiteit Brussel (VUB). He is a graduate of the Indian Institute of Technology Kanpur and has a doctoral degree from the University of Roma Tre. His primary research interests are socio-economic aspects and sustainability of transport, and road safety, with a particular focus on vulnerable to exclusion citizens. In recent years he has been working in and coordinating Horizon 2020 and Horizon Europe projects on themes such as, but not limited to accessible and inclusive mobility, transport policy, knowledge brokerage in mobility, and human factors and just transition in transportation and energy. Additionally, his past and present research engagements also include editing interdisciplinary books on European mobility policies, environmental impact assessment projects in India and driving simulator studies in Italy. A good part of my work and interests revolves around issues vulnerable to exclusion citizens face.
